CONCRETE REPAIR RANGE

Fast Set & Strength Gain
Allow for a Rapid Return to Service
No Chemical Additives
Potable Water Approved (DWI reg.31)

Natural Cement

CONCRETE REPAIR

Although concrete is the most widely used construction material in the world, there are many reasons it can deteriorate over time and leave it in need of repair such as:

- Corrosion of reinforcement
- Insufficient cover
- Chemical attack
- Water / Frost damage
- Excessive loads
- Structural damage
- Fire damage

BENEFITS

Our range of Concrete Repair products are based on a unique Natural Cement binder that has been in use for over 200 years. The products contain no chemical additives and have many benefits over alternatives including:

- Fast set
- Rapid strength gain
- No curing period
- Excellent adhesion
- Waterproof
- High chemical resistance
- Set Underwater
- Can be used in freezing temperatures
- No chemical additives
- No need to prime reinforcement

APPLICATIONS

Natural Cement supply a range of environmentally friendly Mortars, Grouts and Shotcretes suitable for both cosmetic and structural repairs of concrete structures including:

- Vertical, Horizontal & Overhead
- Water & Wastewater Infrastructure
- Bridges
- Sea Defences
- Car Parks
- Reservoirs
- Lintels
- Industrial Floors
- Swimming Pools
- Conservation of Historic Buildings
- General Repairs

THE RANGE

There are a broad range of Mortars, Grouts & Shotcrete products for Concrete Repairs available from Natural Cement

Products are designed for different applications with various set times, aggregate sizes, finishes and application methods available.

Options are shown on the Product Comparison Table on the next page.

PRODUCT SELECTION

NATCEM 35

Uses: Concrete Repairs, Grouting, Waterproofing, General Repairs
Set: 35 - 45 mins
Min Depth: 10mm

NATCEM AC

Uses: Concrete Repairs, Anti-Carbonation Coating, Grouting
Set: 35 - 45 mins
Min Depth: 3mm

LUL RAPIDESET

Uses: Concrete Repairs, Void Filling
Set: 8 - 10 mins
Min Depth: 2mm

TRACKCRETE

Uses: Repairs, Grouting, Void Filling
Set: 30 - 35 mins
Min Depth: 35mm

SHOTCRETE 513

Uses: Sprayed Concrete, Concrete Repairs, Waterproofing, Leak Sealing
Set: 4 -10 mins
Min Depth: 10mm

SHOTCRETE 530

Uses: Sprayed Concrete, Concrete Repairs, Waterproofing, Structural Strengthening
Set: 4 -10 mins
Min Depth: 35mm
