

**Discover the
benefits of
Natural Cement**

ABOUT US

Natural Cement manufacture a range of mortars, grouts and shotcretes based on an environmentally friendly Natural Cement binder which has been in use for over 200 years.

The unique products are used primarily for Concrete Repairs, Waterproofing, Grouting, Screeding and Sprayed Concrete in a range of markets including:

- Construction
- Water & Utilities
- Tunnelling
- Rail
- Civil Engineering
- Sea Defence & Coastal

Our products are environmentally friendly with a low carbon footprint, chemically resistant, waterproof and have proven to be great time savers due to their rapid strength gain and short curing times. A number of our products are also DWI Reg.31 approved for potable water applications. Natural Cement based products have no shelf life, can be used down to and below 0°C, they require no grit blasting, steel primers or bonding & curing agents.

APPLICATIONS

Natural Cement products can be used for various applications including:

- Concrete Repairs
- Waterproofing
- Sprayed Concrete
- Screeding
- Underwater

BENEFITS

The Natural Cement used to produce all of these products has a number of unique benefits & properties. These are all produced naturally, without the addition of chemical additives.

The benefits of these products are:

- Fast Set
- Rapid Strength Gain
- Set Underwater
- No Curing Period
- Sets In Freezing Temperatures
- No Shelf Life
- High Chemical Resistance

ENVIRONMENTAL

Natural Cement manufacture a range of mortars, grouts and shotcretes based on a unique natural binder which has been in use for over 200 years. The products have many environmental benefits over traditional Ordinary Portland Cement (OPC) & Chemical based products including:

- Low Carbon Footprint
- No Chemical Additives
- Fish Friendly
- Recyclable Packaging
- Drinking Water Approved

CPD TRAINING

Discover the benefits of our range of environmentally friendly Natural Cement Products with an accredited CPD seminar.

We have a number of CPD Service accredited seminars available including:

- Environmentally Friendly Solutions for Concrete Repairs, Waterproofing, Grouting & Sprayed Concrete
- The Benefits & History of Natural Cement

PRODUCT TRAINING

Natural Cement can offer basic training on the mixing techniques and application methods of Natural Cement based products, free-of-charge, for all contractors, distributors, and merchants.

Sessions can be made up of either hands-on practical training, classroom-based presentations or a combination of both – covering all applications of Natural Cement products including Concrete Repairs, Tanking / Waterproofing, Screeding, Grouting and Rendering.

Please contact us for further advice and guidance on the best solution for your project.
